WHAT WE DO

Precision, Delivered.

Coldstream Engineering delivers high-accuracy machined components and assemblies for customers who demand absolute reliability in product and supply.

As part of the respected Adelphi Group, we combine modern CNC technology and sheet metal fabrication with the expertise of a skilled engineering team to provide consistently high-quality parts and dependable lead times.

Our Capabilities

Our fully equipped machine shop enables precision at every stage, with all key processes delivered in-house:

- ⚙️ CNC milling for complex and high-accuracy components
- ⚙️ CNC lathes for high-volume runs, and tight-tolerance machining
- ⚙️ Sheet metal forming and fabrication of small and large complex parts
- ⚙️ Manual milling and turning for specialist or low-volume work
- ⚙️ Programmable mills for repeatable, consistent production runs
- ⚙️ Design, prototyping and 3D printing

We support customers from initial concepts and prototypes through to small, medium and large-batch production, ensuring reliable, repeatable quality throughout.

Materials Expertise

We machine a wide range of engineering-grade materials, including:

- ⚙️ Stainless steel and super-alloys
- ⚙️ Aluminium and its alloys
- ⚙️ Brass to Hastelloy to Tungsten
- ⚙️ PTFE
- ⚙️ Plastics and specialist engineering materials

This versatility allows us to meet the technical demands of diverse industrial sectors.

WHO WE WORK WITH

Industries We Can Support

Coldstream Engineering serves organisations where integrity, reliability, precision and quality are essential. Our experience spans a broad range of sectors, including:

Whether a one-off specialist component or repeat batch production, we tailor our approach to meet your needs.

Why Customers Choose Us

Partnering with Coldstream means choosing engineering confidence built on:

-  UK sourcing and high-accuracy machining to exacting tolerances
-  Experienced engineers with a quality-driven mindset
-  Modern, market-leading machinery and proven processes
-  Reliable and repeatable output, every time
-  Pricing without compromising quality or standards
-  Support and stability of the Adelphi Group
